

SURENDRA REDDY GANDRA

Hyderabad | +91 9121758435 | surendrareddygandra3@gmail.com | [LinkedIn](#)

Associate Software Engineer with practical experience in designing and developing AI-powered applications using LLMs, RAG pipelines, and agentic workflows. Strong foundation in Python, FastAPI, and backend system development, with an emphasis on writing clean, efficient, and maintainable code. Looking to contribute to impactful, real-world products in a collaborative environment that values innovation and technical growth.

PROFESSIONAL EXPERIENCE

Zennial Pro Pvt. Ltd.

April 2025 - Present

Associate Software Engineer

- Involved in building AI-driven solutions, working with LLM-based workflows to improve response quality and overall system behavior.
- Increased understanding and efficiency of AI-driven processes by 25% by fine-tuning models, prompts, and agent workflows.
- Worked with Python, FastAPI, MongoDB, LLMs, LangChain, and RAG-based AI tools to develop AI-driven workflows and solutions.

PROJECTS

Voice Agent E-Commerce Platform (VOXERA) [GitHub](#)

November 2025 - Present

- Developed a voice-driven e-commerce platform that allows users to search, explore, and interact with products using natural language voice commands, improving user interaction efficiency by 40%.
- Built LLM-powered conversational workflows to process voice inputs and handle intent resolution, improving response accuracy and consistency by 30%.
- Used Python, FastAPI, and LLM-based processing to optimize AI voice interaction workflows, cutting response time by 25%.

Smart Parking Finder Management [GitHub](#)

September 2025

- Developed a Smart Parking Finder API that enables users to locate and book parking slots in real time, improving booking efficiency by 35%.
- Implemented secure JWT-based authentication and session management, reducing unauthorized access attempts by 80%.
- Used Python, FastAPI, and MongoDB to enhance slot allocation, improving API response performance by 20%.

Gesture Driven Presentation Control [GitHub](#)

April 2024 – May 2024

- Created an innovative gesture-based control system, enabling real-time interactive presentation control, enhancing ease of use and responsiveness by 30%.
- Optimized gesture recognition and hand tracking processes, achieving a 20% improvement in responsiveness compared to initial benchmarks during testing.
- Utilized Python, OpenCV, and MediaPipe to optimize hand detection, reduced processing time by 15% and improved system performance by 25%.

EDUCATION

S.R.K Institute of Technology

2020 - 2024

Bachelor of Technology – Computer Science and Engineering (AI & ML), 7.82 CGPA

SKILLS & OTHER

- Programming Languages : Python (OOPS)
- Web Technologies : HTML, CSS
- Backend Frameworks : Flask, FastAPI
- Databases : SQL, MongoDB, PostgreSQL
- Tools : Cursor AI, GitHub, Postman, Swagger
- AI & LLM Skills : LLM Fundamentals, Prompt Engineering, RAG, LangChain, LangGraph

CERTIFICATIONS

- Getting Started with LLM's – Analytics Vidhya – October 2025
- LangChain Fundamentals – Analytics Vidhya – October 2025
- Python – HackerRank – November 2024
- SQL – HackerRank – November 2024
- Agile Job Simulation – JPMorgan Chase & Co. (Forage) – July 2024
